

Technical Data Sheet

Product Name: Sodium selenite

Molecular Formula: $\text{Na}_2\text{O}_3\text{Se}$

Molecular Weight: 172.94

CAS No: 10102-18-8

Appearance: White Powder

Melt point: 172.94

Selenite (Na_2SeO_3) in (dry)%: 98.0%

Selenite (se) in (dry): $\geq 45.01\%$

Cd: $\leq 0.0001\%$

As: $\leq 0.00017\%$

Pb: $\leq 0.00048\%$

content of selenium and sulphate: $\leq 0.3\%$

solubility test: All dissolved, clear transparent

loss on drying: $\leq 1.0\%$

Storage: Preserve in tight, light-resistant containers at room temperature.

Packaging: 25kg/drum

Se is a necessary element in promoting animal' growth, reproduction.

Sufficient Se can improve litter weight at weaning, and facilitate sending activity of sperm.

Sufficient Se can improve lean meat percentage and increase the eye muscle area, reduce the drip loss of breast muscle. Improve the color of meat.

Plenty of selenium help to improve the activity of glutathione peroxidase

Increase the ability of anti-oxidation and anti- stress.

工厂地址: 中国山西省河津市吴家关工业园,邮编: 043300

电话 Tel: 400-9982989

Facility Address: Wujiaguan industrial garden, Hejin, Shanxi, Zip Code:043300.

传真 Fax: 0574-89219600

销售地址: 浙江宁波市天童南路 666 号 503 室, 315100

网址 Website: www.jinjingroup.com

Sales Office: Rm 503, No 666 Tiantong South Road, Ningbo,Zhejiang. Zip Code:315100
